

Spring is in the Air!

Some Tips to prepare for Spring!

The snow is melting, the birds are coming back, and it's almost time to think about playing in the water again! We wanted to reach out and give you a few tips to get your outside hose faucet all set for the season and avoid problems!

A problem that our customers have seen is leaking hose faucets. These can sometimes break from our cold winters and leak water either inside or outside of your home. The most common time to find this problem is when using it for the first time of the season!

Here is our 4 step guide to checking your hose bibs!

HOW TO CHECK YOUR OUTDOOR

HOSE BIBS FOR LEAKS

Call us before February 29th and we will schedule a free Hose Bib check to anyone who calls before the end of the month!

We hope you find all is well when getting set up for spring but in the case you find that you may have a leak give us a call!
